DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 7/31/03 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) **U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents**; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered.

Drawings

The drawings filed on 7/31/03 have been approved.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Election/Restrictions

3. Applicant's election of Invention I (claims 1-11, 18, 24 and 27) in the reply filed on 10/13/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

4. This application is in condition for allowance except for the presence of claims 12-17, 19-23, 25-26, and 28-29 directed to inventions non-elected without traverse. Accordingly, claims 12-17, 19-23, 25-26, 28-29 have been cancelled.

5. The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 12-17, 19-23, 25-26, and 28-29.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy all the limitations as now cited in claim 1. Especially, the prior art does not teach or suggest **“a manufacture line having plural process processing apparatuses; a production management system which manages the processing of workpieces in the manufacture line; foreign matter monitors mounted as on-machine equipment in said plural process processing**

apparatuses” and “an image signal processing unit used for, based on a detection digital image signal associated with a foreign matter monitor and acquired from the buffer memory, judging whether foreign matter and other defects are present on a workpiece according to an inspection recipe which is selected for the corresponding foreign matter monitor based on control information from the control unit”, in combination with the rest of the limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
